

USB DVB-T Adaptor

- * S/W V2.09.85 is supporting USB DVB-T adaptor.
- * Currently we tested MSI's DIGIVOX DUO and it is working well.
- * If you have this model, you can connect it to the PVR and then turn on the PVR.
- * Then, you will find Terrestrial Search menu on your PVR.
 - Only the model using AF9015 Chipset can be supported Currently.
 - Not working with T-tuner model.
 - With DVB-T adaptor, only watching live channel is available (Recording and Play back is not supported)

The following models could be supported with highest possibility.

<Supported model list>

Afatech AF9015 DVB-T USB2.0 stick
Leadtek WinFast DTV Dongle Gold
